

"PUSH PLAY FOR INCLUSION, MEDIA
EDUCATION AND HEALTHY USE OF
DIGITAL TOOLS"

YOUTH EXCHANGE

PARTICIPANTS – PROGRAM – TRAVEL

INTRO

The youth exchange "Push Play for Inclusion, media education and healthy use of digital tools" is dedicated to young Europeans who live every day in contact with the difficult condition of disability. We want to respond to the need to acquire skills in photography and video-making as a means of expressing their feelings.

This will allow you to learn how to make creative and good quality audio/video products, which we can then use in everyday life.

OUR GOALS

01

equity and inclusion of participants with fewer possibilities

With this youth exchange we intend to contribute to the achievement of the following objectives of Erasmus+:

02

promote multilingualism and multiculturalism with moments of exchange and national evenings in which each group will make their language and culture better known

03

promote socialization between young people of different nationalities thus increasing the sense of European citizenship, through shared moments and activities carried out in international groups

04

increase the level of key skills for the participant's creativity and self expression. The project will consist of a series of activities, games, jobs in which the personal (self-esteem, flexibility), social (communication, teamwork) and cognitive (problem-solving, planning, time-management) some components of employability will be developed.

THE PROGRAM

The exchange will take place from 5 - 15 August 2023 at San Giorgio del Sannio (travel days included) . 42 young people from 6 different countries will participate in the exchange. Mainly non-formal education methods will be used, which will play a fundamental role in achieving the training objectives. Unlike formal education, this method is based on a horizontal relationship between all the participants (trainers, volunteers, young people) who therefore develop working together skills and knowledge, learning by doing. Some principles of non-formal education are the participatory, cooperative and learner-centred approach, the intrinsic motivation of the participants, the close link with the aspirations of the young people, the evaluation of successes and failures within a collective process and the right to be wrong.

PARTECIPANTS

Participating countries are: Italy, Hungary, Romania, Spain, Latvia. Every national group will be formed by 2 leaders and 6 participants.

Participants can be between 18-25 years, while there is no age limit for group leaders, small exception can be made.

You do not need to have any specific previous experience. If you would like to create something new, challenge yourself in an international group and be part of the adventure, join us!

Assistance will be provided to participants with disabilities.

FACILITATOR

Luca Paolisso is going to lead the program with a group of experienced assistants as a support team. Group leaders from each country are going to form the team of assistants who are also experienced in organizing youth programs, holding workshops, leading groups.

LOCATION

The project will take place and we will sleep in the town of San Giorgio del Sannio (BN) at “Convento Francescano SS. Annunziata” www.ofmsangiorgiodelsannio.it . It is a Franciscan catholic monastery which offers several services to the community and supports local associations focusing on social work, especially with migrants. Rooms can host up to to 8 people and have common bathrooms and showers in the corridors. The place has a theatre and common areas where the group can work together.

IMPORTANT: Everybody is expected to be involved in a community life and manage the monastery.

The monastery doesn't have a Wi-Fi internet connection, so we strongly advice to arrange a suitable solution with a mobile provider before arrival in Italy.

JOIN US!

IMPORTANT: do not buy any ticket until you receive a confirmation from us. For any information feel free to write to: luca.paolisso@gmail.com

If you are interested please fill the form you can find by clicking the link:
